

## **Me of Little Faith**

Words and Music by Benjamin Johnson ©2010

### *Verse 1*

Winds howling, waves crashing  
We're anxious for our very lives  
You're walking, on water  
A specter challenging our fright  
Then suddenly, something in me  
Won't cower anymore  
I have to get out of this boat and step out towards the shore

### *Chorus*

O me of little faith  
Sinking in the wind and waves  
Then You reach out and You take me by the hand  
O me of little faith  
Somehow I'm awash in grace  
I don't know how You use me as I am

### *Verse 2*

I can't say, I don't feel  
This fear that's rising up inside  
I just know, I won't live  
Until I take this wild ride  
The things I see, are telling me, that I cannot survive  
But I'll never walk on water trusting in these eyes

### *Verse 3*

With each step, I venture  
My feet are surer than before  
I'm parting, with my schemes  
Cause I don't need them anymore  
Now I won't say, that I believe, then live some other way  
I don't need a backup plan if I will just obey!
