

## ***That We Might Live***

Words and Music Benjamin Johnson ©2010

### *Verse 1*

Crown of thorns, whip scourged back  
And a love that endured to the end  
The empty grave, conquering death  
You taught that all who seek life  
Must find their way to the cross

### *Chorus*

That we might live in the power of Your resurrection  
We must become, like You in Your death that gave all for the cause  
Willing to share, in the fellowship of Your sufferings  
Following You to the cross  
That we might live

### *Verse 2*

Crown of life, robes of white  
To all who endure to the end  
Made like Christ, Glorified  
But first we must come to the cross  
Where all that was gain becomes loss
